Houston Food Bank’s drivers and transportation team are a crucial aspect of our operation. With vehicles ranging from pickup trucks to 53-foot trailers, our fleet drives routes that cover the entire 18-county service area, delivering food and supplies to our partner sites so they can distribute what is needed directly to their communities.

195 Vehicles
in our fleet for most of our fiscal year ‘22 (July 2021 - June 2022)

185,194 Miles
driven per month on average by HFB drivers

18.2 Million Meals
accessed by the community each month on average thanks to deliveries made by HFB drivers

Fun Fact!
The type of trucks used for our mobile pantries are traditionally beverage trailers, meaning they are refrigerated. Thanks to this, they are used to distribute perishable foods directly from the truck!

Our Mission: Food for better lives
Our Vision: A world that doesn’t need food banks

A gift of $10 provides access to 30 meals for someone in the community.
