

The **School Market Program** helps alleviate child hunger in our community by **providing food** to children and their families. School-based markets are **located on the grounds of a school** to provide an easily **accessible source** of food assistance.

School Markets are set up **like a small grocery** store at a consistent location **within a school's campus**, with **set distribution schedules**. School Markets also **may operate** through a **mobile market** that brings food to a school campus on a truck with a **large refrigerated trailer**.
